the outdoors. When put on its optional legs it becomes a free standing unit.

The strong aluminum top lid can be folded back and reveals an optional 2-burner cooking stove. It serves also as wind screen and can be detached for utilization as serving tray. The silverware drawer, shelves and dividers for storing the kitchen items are dimensioned to fit most available light weight cookware.

### Applications:

- Pack Outfitter
- White Water Rafting
- Overland travel
- Expedition, Safari
- RV / van outfitter
- Work camp
- Emergency kitchen
- Outdoor Catering
- ... and anytime you need to take your kitchen outdoors

The K120 Series Field Kitchen is a container which stores a camping stove, and cookware. It provides also a working platform.

Together with the Field Pantry and the Ice box it can be transformed into a complete outdoor kitchen system.

It is made of deep drawn marine-quality aluminum panels for light weight and high impact strength. The combination with organic materials (Baltic birch plywood panels) gives it a unique look and feel, fitting
